

# READY FOR THE NEW LEGISLATION?

The European Accessibility Act deadline is approaching. From **June 28, 2025**, webshops, banks and platforms **in all EU member states** must comply with the EAA\*. This means your website or platform must be digitally accessible to everyone, including people with a disability.

## WHAT DOES THAT MEAN FOR YOU?

If your website doesn't comply, you risk not only complaints and fines, but also losing revenue. Fortunately, this is easy to prevent.
